EMPLOYMENT HISTORY

WEB DEVELOPER | FREELANCE OCTOBER 2020 - PRESENT

Working on a diverse range of projects designing and launching client websites including both front and back-end responsive development.

Key projects:

Rock'n'Roll Herberge: Music Themed Youth Hostel - rnrherberge.de

Designed and built a responsive website using Reactjs for the front-end development, and Express/Nodejs for the back-end.

Ensured optimized UI/UX and admin interface including an admin panel allowing content editing.

Performed UAT, utilized Nodemailer to allow bookings to synchronize with email, and translated site into English allowing two language versions.

Since website launch the hostel has been fully booked with guests.

Nahdran: Film project platform - nahdran-film.de

Built a responsive website from scratch to showcase a stop motion short film being submitted to a film festival, front-end was developed with Reactjs and back-end with Express/Nodejs.

Gathered client requirements regarding design and ensured both optimized UI/UX and admin interface.

Performed UTA, created an admin panel to allow the client to receive enquiries and upload educational content.

Charlotte Hillborg: Online Artist Portfolio - chillborg.com

Built a responsive website from scratch, front-end was developed through Reactjs and back-end with Express/Nodejs and database Postgres.

Researched competitor sites to develop an effective design, and ensured optimized UI/UX.

Developed an effective and optimized user interface, and provided basic support on content.

Performed UAT, created an admin panel to enable the client to receive enquiries and upload new artworks, and recently redeveloped and improved the entire website using Nextjs and SQLite.

Hello Vape GmbH, Berlin

STORE MANAGER | MAY 2018 - OCTOBER 2020

Initially managed two retail outlets, and subsequently promoted to manage a third, involved in staff talent acquisition, delivered training and development, and coached, mentored and motivated employees to achieve targets and deliver excellent customer service.

Performance managed team members which included the creation and monitoring of KPIs across both revenue generation and number of sales. Ensured optimised store presentation, and scheduled all store staff rotas. Dealt with all customer service escalations, oversaw pricing and stock control.

CUSTOMER SERVICE ASSISTANT | MAY 2017 - MAY 2018

Worked in a busy retail outlet, greeted and directed customers, demonstrated and sold store products and accessories, and investigated and resolved any complaints. Supplied information on product features and pricing, cross-sold additional products, and provided after-sales service. Managed merchandise returns, informed customers about discounts and special offers, and provided customer feedback to store manager
