PROFESSIONAL SUMMARY

A multilingual, creative, and solution-focused web developer with solid experience of practical programming, skilled at delivering professional, effective and responsive platforms for a diverse range of clients. A strong analytical and problem-solving mentality, with a collaborative work-style and a proactive attitude. The capacity to design, develop and deploy both front and back-end projects, create high-quality code, and consider both external UI/UX, and internal CMS interface. Strong stakeholder management skills, ensuring a thorough understanding of client requirements, and managing projects efficiently from conception through to design, UAT and launch. Highly motivated and passionate about technology, comfortable juggling multiple priorities, and keen to develop positive and productive working relationships.

KEY SKILLS

Website Creation | Front-End Development | Back-End Development | REST API | Responsive Design | SEO | UI | UX | UAT | Stakeholder Management | Creative Design | Customer Service | Communication | Problem-Solving

PROFESSIONAL EXPERIENCE

Freelance

October 2019 - Present

Web Developer

Working on a diverse range of projects, designing and launching client websites including both front and back-end responsive development. Building Front- and Backend mainly with frameworks such as React, Nextjs, Nodejs with Typescript. Creating UI/UX design with Figma.

Creating custom CMS based on client requirements regarding design and usage to ensure the maintenance and content editing is as easy as possible for the clients.

Implementing Stripe, Nodemailer, Mailchimp, variety of UI/UX libraries such as Material UI and Semantic UI
